附件 1 Attachment 1

温肯建筑与设计学院实训工坊学生安全责任承诺书

WKU MGC Workshop Safety Acknowledgment and Commitment Form for Students

本人确认已仔细阅读《温州肯恩大学建筑与设计学院实训工坊安全管理规程》，并通过口头及在线培训全面了解相关安全规范。本人知悉，未能遵守这些规定可能对他人及自身造成严重伤害。同时，本人承诺将以负责任的态度妥善使用所有工坊材料与设备。
I hereby confirm that I have carefully read the *Wenzhou-Kean University Michael Graves College (MGC) Workshop Safety Management Regulations* and have completed verbal and online training on relevant safety protocols. I am aware that failure to observe these regulations may cause serious injury to others and to myself. I also acknowledge that it is my responsibility to handle all workshop materials and equipment with care.

本人确认以下事项:

I understand and agree to the following terms:

1. **安全设施位置**: 我已了解工坊内消防器材（灭火器、消防栓）、个人防护设备（护目镜、防噪耳罩等）及废料分类回收箱的具体位置。
   Location of Safety Facilities: I have been shown the locations of firefighting equipment (fire extinguishers, fire hydrants), personal protective equipment (safety goggles, hearing protection, etc.), and waste sorting bins within the workshop.

2. **操作规范认知**: 我已熟悉工坊基本工作流程及常用设备的操作方法。我理解，操作未经培训的设备可能导致严重事故。
   Understanding of Operating Procedures: I am familiar with the workshop's basic workflows and the operation of common equipment. I understand that operating equipment without proper training may lead to serious accidents.

通过在下方签字，我郑重承诺:

By signing below, I hereby solemnly commit that:

1. **培训与授权:** 本人承诺绝不会在未获得设备对应风险等级（绿色、黄色或红色）所要求的培训和授权(以工坊培训登记册中的记录为准)的情况下操作任何设备。
   Training and Authorization: I will never operate any equipment without the training and authorisation required for its risk level (green, yellow or red), as recorded in the workshop training register.

2. **三查制度**: 本人将严格执行开机前检查设备状态、运行中监控异常、关机后断电归位的操作规范。
   Three-Check Protocol: I will strictly follow the protocol of inspecting equipment status before startup, monitoring for abnormalities during operation, and ensuring power-off and tool return after shutdown.

3. **个人防护**: 进行切割、打磨等危险作业时，本人必需佩戴双重防护（如护目镜+防割手套）；进入工坊时，必穿戴全封闭防滑鞋履，束起长发。
   Personal Protective Equipment (PPE): When performing high-risk tasks such as cutting or grinding, I will wear dual protection (e.g., safety goggles + cut-resistant gloves). When entering the workshop, I will wear enclosed anti-slip footwear and secure long hair.

4. **禁止行为**: 本人承诺不擅自改装设备，不进入未经授权的危险区域；不携带食品、饮料、易燃易爆品进入工坊；不在工坊内吸烟、饮食或追逐打闹。
   Prohibited Behaviors: I will not modify equipment without authorization, nor enter restricted hazardous areas. I will not bring food, beverages, or flammable and explosive items into the workshop. I will not smoke, eat, drink, or engage in horseplay inside the workshop.
5. **场地维护**: 实训结束后，本人将及时清理工作台废料并分类丢弃，归还工具至指定位置，关闭设备电源，确保工坊整洁安全。
   Workspace Maintenance: After completing workshop activities, I will promptly clean my workstation, sort and dispose of waste properly, return tools to designated storage areas, and power off all equipment to ensure the workshop is clean and safe.

本人理解并同意: 如违反本承诺书的任何条款，我可能被禁止使用实训工坊，并被取消相关课程或项目的工坊准入资格。本人自愿承担因违规操作所引发的一切后果。
I understand and agree that: If I violate any term of this Acknowledgment and Commitment Form, I may be barred from using the workshop and my workshop access privileges may be revoked. I voluntarily assume all consequences arising from any violation.

本表一次签署即对全部工坊区域及课程所需程序始终有效。但是，获得各工坊使用权限，仍需同时满足以下两个条件：该区域对使用者开放，并且已完成该区域专门的培训与准入授权程序。
This form is signed once, upon completion of the general induction, and remains valid for all workshop areas and courses. However, access to each workshop area still requires that the area be open to users and that the area-specific training and access authorization process be completed

将使用的工坊区域 (Workshop Areas to be used)

☐ 机械臂 Robotic Arm ☐ 3D 打印 3D Printing ☐ 木工 Woodworking ☐ 激光与 CNC Laser & CNC ☐ 丝网印刷 Screen Printing ☐ 陶泥 Ceramics ☐ 摄影棚 Photography Studio ☐ VR & AR ☐ 其他 Other: _____
